Deputy

I understand the request.it is possible but a significant lift from a resource perspective. Especially when requests are based on probabilities with no substantiation.

We have the information on the RCMP officer. It was not placed IN HENDON due to the broad dissemination. I will follow up on it. Some of the info was confirmed and send some conjecture.

Pat

Hi Pat,
Commr , myself, Chris and Chuck had a informal meet tonight.

I have heard a couple of times today that there is an RCMP officer who resigned (sniper trained) as anti vaxxer who used to work on the hill and very familiar with ins and outs. Apparently he is working on logistics for the protesters and has staging area there.

I have not actually seen this in any hendon report and wanted to bring it to your attention to determine if reliable.

On another note, just got off the phone with Commissioner and we are putting together POU resource lists across the province for all oacp.

With that If we knew 4 events were happening on the same day or weekend there would be a JMT with those POJs to discuss resource needs and intel that dictates who may need additional resources and from who the request is made. This will eliminate the same agency getting a request for assistance from 2 different agencies for the same date. The hope is you can ask that all areas report any known or possible protest/ demonstration upcoming in their area to help get the Provincial picture - captured in Hendon.

Today on a call Windsor Chief advised Ambassador bridge with some US trucks may be a protest area this weekend. If all of these potentials are brought to Hendon, all chiefs can work to assist each other as needs arise.

Chuck if I missed anything please feel free to add.

Thanks Pat
